The Cox-Sprague scoring system awards points dependent on the number of participants in a race in each class. For example, in a race with 6 boats the winning boat receives 60 points and the second placed boat 54 points, etc.

Points indicated in parenthesis ( ) indicate the score to be awarded to any yacht which did not start (DNS), started on course side (OCS) retired (RET) did not finish (DNF) or was disqualified (DSQ).

If IRC or HKPN divisions are split into rating or handicap bands, the number of boats participating in each division will be used to determine the points awarded to each boat in any race.
